# **NAH TUN**

#### **NAH TUN**

"Nah Tun, la casa de piedra" es una fusión perfecta entre tradición y modernidad. Inspirada en la arquitectura maya, toma la solidez y el carácter atemporal de la piedra, un material reservado para templos y residencias de la élite, para crear un espacio exclusivo y sostenible. Su diseño abierto permite que el aire y la luz fluyan libremente, ofreciendo una experiencia de vida en armonía con la naturaleza, donde lujo y tranquilidad se encuentran en el corazón del paisaje tropical.
